

ARMCO RAILGARD™

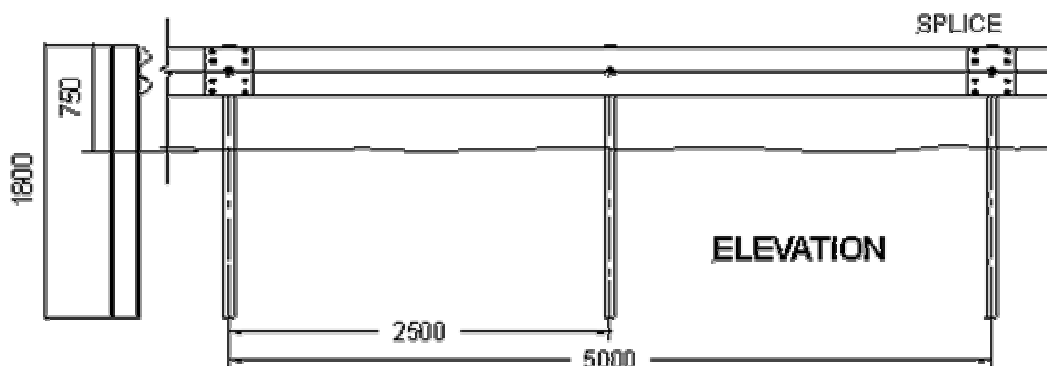

ARMCO® Barriers provides a range of standard lengths of Railgard™ to satisfy all of your protection barrier requirements. There is a variety in length, post hole centres and finishes kept as stock at our manufacturing plant however, when the occasion arises, specials can also be custom made to suit your needs.

The information below should guide you in your choice of Railgard however, please keep in mind that the overall length includes the 159mm overlap at each end of the rail.

Part No	Description	Overall Length	Standard Post Centres	Other Post Centres Available
XR5	ARMCO Railgard™ x 5m	5.318M	2.5M	1.25, 1.0, 0.5M
